## SKILLS

- Advance Javascript
- Frontend - React, VueJs, GatsBy
- TypeScript
- NodeJS, Express
- State management - Redux
- SocketIO
- Bootstrap, Ant Design
- CSS, SASS/SCSS
- Version Control - Git, Bitbucket
- Rest API
- MongoDB, FireBase
- CMS - Contentful, Sanity

Creating intuitive web apps by combining the art of design with programming that seamlessly integrate into our lives is the kind of challenge I want to tackle as a web developer

## EXPERIENCE

### TEKION CORP.

SSE | 2020 AUG - PRESENT

The First & Fastest Cloud-Native Automotive Retail Platform.

- **Rule Engine** - Intuitive app that gives users the ability to create complex rules which are a combination of different actions and conditions, and can be triggered manually or automatically when required. Took ownership and build the product from scratch with React, Redux, D3, and other custom wrote UI interaction logics

### FUSIONCHARTS

SE | 2016 JULY - 2020 AUG

FusionCharts provides JavaScript charting library for web and enterprise applications across globe.

- **Web Applications** - Frontend architecture and migration of FusionCharts web apps from PHP to NodeJs with VueJs SSR. Achieved high performance, improved SEO, accessibility, and browser compatibility.
- **Design System** - Build a custom design system for FusionCharts from scratch to create a consistent experience across different apps, which allowed developers and designers to reuse design components.
- **Visual Regression** - A visual comparison test to compare design changes between new and old pages, to deliver seamless and pixel-perfect deployments.
- **Fusion Store** - Contributed and maintained to this internal tool like jsFiddle where one can create and store charts

## EDUCATION

### JALPAIGURI GOVT. ENGG. COLLEGE

B-TECH | 2012 - 2016

INFORMATION TECHNOLOGY

UNIVERSITY - WBUT

## REFERENCE
